WE CAN HELP

Free Senior Living and Care Referral Services

Finding the suitable facility, housing or home care is a daunting task let alone understanding the differences.

Does your family need help with navigating care options and living arrangements in the community?

SENIOR LIVING AND CARE OPTIONS

SENIOR LIVING AND CARE OPTIONS is a **FREE** Referral Service provided to seniors and their families by **RIGHT ACCORD** by connecting them to senior care living options available in the community. We help seniors and families make informed decisions about the health care continuum from senior care to senior housing. We will assist in finding the right place that will fit their needs, location and budget.

- **Continuing Care Retirement Communities (CCRC)**
- **Independent Living Facilities**
- **Assisted Living Facilities**
- **Memory Care Units**
- **Alzheimer's and Dementia Care Facilities**
- **Long Term Care / Nursing Homes**
- **In-Home Care Services**

CONTINUING CARE RETIREMENT COMMUNITIES - Continuing Care Retirement Communities, also known as CCRCs, offer mature adults the ability to 'age in place' without ever having to move for health reasons. Whereas most traditional retirement communities offer only independent living and assisted living, CCRCs provide a continuum of care that includes everything from independent and assisted living to memory care and skilled nursing. CCRCs often require a buy-in fee and a long-term contract.

SENIOR LIVING AND CARE OPTIONS

INDEPENDENT LIVING FACILITY - provide seniors with an alternative to conventional retirement living options. Independent Living communities feature apartment or condominium living for seniors who do not require specialized care, although Home Care is often available. Typically, these communities offer weekly housekeeping, three meals a day, local transportation and regularly scheduled social activities for an all-inclusive, monthly rental fee.

ASSISTED LIVING FACILITY - Assisted Living communities provide 24-hour assistance based on individual needs, including daily activities such as bathing, dressing, housekeeping, meals and medication.

ALZHEIMER'S / DEMENTIA / MEMORY CARE UNITS - Alzheimer's/Memory Care facilities offer specialized care and programs for individuals suffering from Alzheimer's disease or other memory loss. They provide a safe and physically secured environment and may operate as a stand-alone facility or part of an Assisted Living community.

LONG TERM CARE FACILITY / NURSING HOME - Nursing Homes provide 24-hour skilled care for seniors on a longterm basis. Care may also be provided for seniors who require short-term nursing care or rehabilitation assistance.

IN-HOME CARE SERVICES – individualized services by caregivers provided in the home or facility anywhere from few hours to 24 hours.
