

DUAL DISCHARGES = REDUCING READMISSIONS

RIGHT ACCORD

Private Duty-Home Health Care

"It is in your patient's best interest to benefit from a Dual Discharge. It ensures a much safer transition to Home."

Ideal patients/referrals for Dual Discharge with the Home Health Agencies are those who:

- Clearly need more than what Medicare covers.
- Do not have a solid support system in place.
- You are just not sure what to do with/for them.
- See multiple physicians.
- Are at high risk for readmission to the hospital.
- Are frequent flyers to the ER.
- Have multiple chronic conditions.
- Need support transitioning to their home.

**Partner Our Services
with Medicare Home
Health Agencies to Provide
a Combined Solution!**

Services we will provide to collaborate with the Home Health Agency to coordinate a **safe discharge** and **prevent re-hospitalizations: Dual Discharges.**

- **We will supplement services outside of what Medicare covers** and long after the Visiting Nurse Services through the Medicare Home Health Benefit have ended we keep the patient supported.
- We will collaborate with the Home Health Provider to **provide additional care around the Medicare benefits.**
- Present a **combined solution.**
