

The Most Affordable Option to Aging in Place

Community Based Home Care for Independent Living or Senior Living Communities

Most seniors prefer to remain at their current place of residence. Moving to a facility is stressful and sometimes results in isolation, depression, or a decline in physical or mental condition.

**LONELY SENIORS HAVE A 59% HIGHER
RISK OF PHYSICAL AND MENTAL
HEALTH DECLINE**

**IN 2009, 1 IN 4 SENIORS AGED 85+
FELT LONELY
AT LEAST SOME OF THE TIME**

What if there is a way to allow them age in place?

Community-Based Home Care is the RIGHT ACCORD Home Care initiative to help seniors receive care for as little as 15 minutes for \$15. This is only but a tiny fraction of the Assisted Living Cost.

This set up allows them to remain in their place of residence as long as possible.

Caregivers are accessible anytime during the day and early evening, assisting residents with their ADL (Activities of Daily Living) to help maintain their lifestyle and independence.

STEPS

- 1 Speak to a RIGHT ACCORD Home Care Representative on how to set-up care in your community.
- 2 Residents are monitored and reported to a Registered Nurse when there is a change in condition or require medical attention.
- 3 Caregivers are available throughout the day and evening to address residents needs.
- 4 A unique scheduling app is used to track the minutes or hours consumed by each resident on any tasks rendered by caregiver.
- 5 Traditional Home Care can be added if resident need more care.
